STATE BOARD OF AGRICULTURE CERTIFICATE OF NURSERY INSPECTION

To Whom It May Concern: Dover, Del., Sept. 10, 1926.

This certifies that I have this day examined the nursery
stock and premises of the Nurseries of G. E. Bunting & Sons,
Selbyville, Delaware, and that said nursery stock is apparently
free from crown gall, peach yellows, peach rosette, the San Jose
scale, and other plant diseases and insects of a seriously danger-
ous nature, that may be transferred on nursery stock.

This certificate may be revoked by the State Board of Agri-
culture for cause, and it is invalid after August 31st, 1927, and
does not include nursery stock not grown on the above named
premises unless such stock is covered by certificate of a State
or Government officer and accepted by the State Board of
Agriculture.

RALPH C. WILSON, Inspector.
